Copper King News.

The following article appears in the Copper Situation, published in New York City:

Mr. Stephen J. Whelan, late superintendent of the New York Iron Works, has been appointed superintendent of the copper King of Arizona Mining company, and has taken charge of its properties, making his headquarters at its Barrett mine. Mr. Whelan is a man well qualified for his new position. He has been making a study of mines and mining for some time. He comes of a family of mechanical engineers. His father is now the superintendent of the Atlantic Iron Works of Boston, where he has been in charge for many years.

The new Copper King superintendent has been superintendent of the famous Union Iron Works of San Francisco, which built the engines of the United States battleship Oregon, whose performance in steaming from San Francisco to the coast of Cuba, during our late war with Spain, has never been equaled. He was also assistant superintendent of the D. M. Nichols & Co. Works and of the Atlantic Iron Works of Boston. Though never directly in the employ of the United States government he has done a large amount of work for it which has been commended in the heartiest manner by the officers who have had it in charge. He can be depended upon to develop the Barrett mines of the Copper King of Arizona in the ablest possible manner, and also their properties at Bisbee and Solomon Springs.

The Copper King of Arizona Mining company, has purchased of the El Paso Foundry and Machine company a fine new extra steam engine for use at its Barrett mines. It has made a contract with the Colorado Iron and Fuel company for a six months' supply of coke for its smelter at Barrett, which is now being delivered, and it has purchased from the Pacific Tank company two large storage tanks, having a capacity of 50,000 gallons of water, for Barrett.

In a very short time now it will begin smelting copper, and very soon it will not only be earning its operating expenses with its Barrett mines, but it soon thereafter will be a dividend earner and able to develop its Bisbee and Solomon Springs mines also. Its future is bright with hope, and before another year rolls by the Copper King of Arizona Mining company will take its place among the great money-earning copper companies of Arizona.

A Wonderful Cure of Diarrhoea.

A prominent Virginia editor had almost given up, but was brought back to perfect health by Chamberlain's Colic, Cholera and Diarrhoea Remedy. Read his editorial.—From the Times, Hillville, Va.: I suffered with diarrhoea for a long time and thought I was past being cured. I had spent much time and money and suffered so much misery that I had almost decided to give up all hopes of recovery and await the result, but noticing the advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy and also some testimonials stating how some wonderful cures had been wrought by this remedy, I decided to try it. After taking a few doses I was entirely well of that trouble and I wish to say further to my readers and fellow sufferers that I am a hale and hearty man today and feel as well as I ever did in my life.—G. R. Moore, sold by all druggists.

The New Dress Goods

EVERYTHING we tell of these days can be truthfully prefixed by "New." Especially so does this apply to Dress Goods.

This concerns Novelty Dress Goods, of which we have about fifty patterns—no two alike.

In the dress goods world, the reign of the plaid is supreme—so in this collection plaids are plentiful, but there is no lack of fancy weaves in plain colors, and the plain weaves so desirable for suitings.

Crepons and Poplins, bayedere and two toned effects rough and smooth finished goods—checks and plaids stripes and dots—a careful selection of the best the Eastern market had to offer, and, we doubt not, the highest class dress goods to be found in the territory.

Prices are from 85c to \$2.25 a yard—but with out the goods before you price means little.

GOLF ... HATS

The First Showing of the New Smart Hats for Women

CALL THEM Golf Hats, Automobile Hats, or what you will. The important fact is they are exceedingly Stylish and popular.

Made of a Felt, with brim slightly turned up at back and down in front, or not as you wish it; plain or fancy colored silk folded and tied at the side forms the band through which is fastened a quill.

Briefly, this describes the hat, but no words can quite express the fetching, natty effect of the hat when it fulfilling its mission—crowning fair woman.

In brown, gray, black, blue, and castor shades. Prices from \$1.25 to \$4.50.

They are going rapidly and in order to see the showing in its completeness you should come early. There are only one or two of some styles, so early choosing best.
